

ESSO Pre-congress Course on Hepatobiliary Cancer Surgery

Tuesday 18th October 2022, Bordeaux, FR

Chairs

Lucia Carrión-Alvarez, Fuenlabrada University Hospital, Madrid, SP
Elena Rangelova, Sahlgrenska University Hospital, Gothenburg, SE

Faculty members

Cristina Dopazo, Val D'Hebron Hospital, Barcelona, SP
Sven Mieog, Leiden University Medical Center, Leiden, NL
Florian Primavesi, Salzkammergutklinikum OÖG, Vöcklabruk, AT
Kjetil Soreide, University of Bergen, Bergen, NO
Stefan Stättner, Salzkammergutklinikum OÖG, Vöcklabruk, AT

Programme

08.30-08.40 Welcome and introduction
New developments and HPB-track within ESSO education and training program
S. Stättner

Part 1: Hepatocellular Carcinoma (HCC)

08.40-09.00 Case presentation and preliminary discussion
C. Dopazo

Clinical case guided discussion:

09.00-09.15 Diagnostic criteria for HCC - Imaging techniques and indications for biopsy
L. Carrión-Alvarez

09.15-09.35 Management of patients with HCC - BCLC guidelines
C. Dopazo

09.35-09.50 Liver function – how to predict liver failure?
F. Primavesi

09.50-10.10 Surgical technique and imaging tools for liver resection
F. Primavesi

10.10-10.40 Coffee break

Part 2: Cholangiocarcinoma (perihilar and distal)

10.40-10.55 Case presentation and preliminary discussion L.
Carrión-Alvarez

Clinical case guided discussion:

10.55-11.10 Diagnostic work-up and classification
C. Dopazo

11.10-11.25 Role of oncologic multimodality treatment
L. Carrión-Alvarez

11.25-11.40 Surgical approach and techniques
S. Stättner

11.40-11.55 Complications after liver surgery and management
S. Mieog

11.55-12.10 Distal cholangiocarcinoma – short case discussion and Surgical management
S. Stättner

12.10 – 13.10 Lunch break

Part 3: Borderline resectable (BR)/ Locally advanced (LA) pancreatic cancer (PC)

13.10-13.30 Case presentation and preliminary discussion - What defines resectability?
E. Rangelova

Clinical case guided discussion

13.30-13.50 Diagnostic work-up for BR-PDAC and LAPC-Clinical classification, prognostic factors and diagnostic imaging
S. Mieog

13.50-14.10 Oncologic multimodality treatment - The role of neoadjuvant therapy and its impact on radiologic staging, biomarkers and re-evaluation
K. Soreide

14.10-14.25 Surgical approach to borderline resectable PDA Surgical technique – vascular resections, tips and tricks
E. Rangelova

14.25-14.40 Pancreatic reconstruction – standard techniques and pros and cons of the different anastomosis
E. Rangelova

14.40-15.00 Management of surgical complications after pancreatic surgery
S. Mieog

15.00 – 15.30 ***Coffee break***

15.30 – 16.30 MDT session – Mixed-case discussion

16.30 End of the course
