Consultant Breast Surgeon position at Shanghai Jiahui Breast Institute as part of Jiahui International Hospital

Jiahui Health 嘉会医疗（www.jiahui.com) is looking for a Senior Breast Surgeon to work at our hospital and satellite clinics. Senior Breast Surgeon is responsible for providing independent diagnosis, surgery and treatment to the breast patients.

Shanghai Jiahui Breast Institute is a recently established state of the art breast surgery unit with comprehensive breast diagnostic and treatment services, including oncoplastic surgery and reconstruction. Breast patients are seen in one stop diagnostic clinics and there are day care and inpatient facilities available for breast surgery. Patients are managed in a multidisciplinary setting and supported by clinicians form the Jiahui International Cancer Centre with onsite radio- and chemotherapy facilities.

You Will:

- Collaborate with breast program director, chief of surgery, radiologist and oncology in a multidisciplinary team to manage benign and malignant breast disease according to international practice guidelines.
- Capable to independently deliver care to patients. Manage benign breast problems, peri-operative and post-operative care.
- Surgery skills in breast conservation, axillary lymph node evaluation and various types of mastectomy. Perform surgery independently as privileged in consultation with breast program director.
- Work with other senior surgeons on cases.
- Share calls with surgery department colleagues to ensure 24 hours surgical coverage.
- Be available for night, weekend, or holiday work as needed.
- Be responsible for other duties required by medical staff by laws, Jiahui’s policy and local government regulations.

You Have:

- Board Certified (or equivalent) and hold active medical license in surgery with breast focus.
- Completed medical education in accredited Chinese or foreign medical program
- Training in oncoplastic breast surgery and ideally reconstruction
- Qualified in Basic Life Support
- At least 5 years’ experience in Breast Surgery
- Fluent English speaking ability, Mandarin speaking is a plus

We Offer:

- An exceptional chance to live and work in Shanghai and be at the forefront of the future of healthcare in China
- Clinically diverse cases and patients
A chance to be part of the next frontier in international healthcare
Malpractice insurance, Continuing Medical Education (CME) support, allowance and paid leave
Challenges to fulfill your ambition to advance your career and to change the world
Competitive compensation plan to support you and your family to live a better life
Relocation allowance

For further information and informal discussion please contact the ESSO office and forward your CV to Ana.Galan@essoweb.org.

Your CV will be forwarded to Jiahui Health HR Department and you will be contacted directly for interview, if selected.
