

Advancing Excellence in Breast Care.

OUR MISSION

Representing leading societies and organisations involved in breast surgery specialisation and accreditation, the mission of BRESO is to **raise and harmonise the quality and standards of breast surgical oncology** across Europe.

BRESO intends to develop the **highest standards of breast surgical oncology** in a multidisciplinary setting, for the benefit of **breast cancer patients** who should receive the **best available care across Europe**, no matter which country they live in.

OUR VISION

BRESO's vision is for all women affected by breast cancer to be treated by specialists trained and accredited in breast surgical oncology.

PROSPECTIVE CERTIFICATION

Complete a BRESO-approved training programme during or following completion of standard general, gynaecological or plastic surgery training at the end of which you will obtain a certificate.

RETROSPECTIVE CERTIFICATION

You can apply for Retrospective Certification if you are a surgeon with or over 5 years of experience.

BREAST UNITS APPROVAL

Have your unit BRESO-approved and deliver training to an approved standard. Units may offer fellowships to external candidates, either salaried or unsalaried; some are closed units which only offer training to existing local or National trainees.
