

## ESO-ESP-ESSO-ESTRO Multidisciplinary Course for Medical Students

Kepler University Hospital, Linz, AT

24-28 August 2026

### Faculty (to be confirmed)

**Zineb Belceid**, Erasmus MC, Rotterdam, NL

**Andreas Brandl**, Hospital North-West, Frankfurt (Main), DE

**Nicola Dinapoli**, Fondazione Policlinico Universitario A. Gemelli IRCCS, Rome IT

**Assia Konsoulova**, National Cancer Hospital, Sofia, BG

**Živa Ledinek Štosir**, University of Maribor, Maribor, SI

**Mario Levis**, University of Turin, Turin, IT

**Laura Lorenzon**, Fondazione Policlinico Universitario A. Gemelli IRCCS, Rome, IT

**Xavier Matias Guiu**, University of Barcelona, Barcelona, SP

**Nastazja Pilonis**, National Institute of Oncology, Warsaw, PL

**Damian Ralser**, Kepler University Hospital, Linz, AT

**Stefan Rauh**, Centre Hospitalier Emile Mayrisch, Esch-sur-Alzette, LU

**Gertjan Rasschaert**, UZ Leuven, Leuven, BE

**Stefan Stättner**, Kepler University Hospital, Linz, AT

**Peter Schrenk**, Kepler University Hospital, Linz, AT

**Mateusz Spalek**, Maria Skłodowska-Curie National Research Institute of Oncology, Warsaw, PL

**Alina Sturdza**, Vienna General Hospital, Vienna, AT

**Johannes Teufel-Berger**, Salzkammergut Clinic Vöcklabruck, Vöcklabruck, AT

**Fabio Turco**, Ente Ospedaliero Cantonale, Ticino, CH

**Eric van Cutsem**, UZ Leuven, Leuven, BE

**Alexandra Vilaia**, Colentina Clinical Hospital, Bucharest, RO

**Romana Wass**, Kepler University Hospital, Linz, AT

**Christoph Zacherl**, Kepler University Hospital, Linz, AT

## Programme

|               | 24/08/2026 - Breast                                                | 25/08/2026 - Gyne                                                                             | 26/08/2026 - GU                                                                  | 27/08/2026 - Lung                                        | 28/08/2026 - GI                                                                                     |
|---------------|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| 08.30 - 09.00 | Welcome & Course Introduction                                      |                                                                                               |                                                                                  |                                                          |                                                                                                     |
| 09.00 - 09.20 | Breast cancer - Hormones, HER2 and Hard decisions<br>A. Konsoulova | Below the belt and beyond the basics - a deep dive in gynecological oncology<br>A. Konsoulova | GU Cancer: General Oncological Principles in Diagnosis and Treatment<br>F. Turco | Oncology for Lung Cancer<br>R. Wass                      | Gastrointestinal Cancer: general oncological principles in diagnosis and treatment<br>G. Rasschaert |
| 09.20 - 09.30 | Q&A                                                                | Q&A                                                                                           | Q&A                                                                              | Q&A                                                      | Q&A                                                                                                 |
| 09.30 - 10.00 | Pathology for Breast Cancer<br>A. Vilaia/ Z. Ledinek Štosir        | Pathology for Gynecologic Cancer<br>A. Vilaia/ Z. Ledinek Štosir                              | Pathology for Genitourinary Cancer<br>A. Vilaia/ Z. Ledinek Štosir               | Pathology for Lung Cancer<br>A. Vilaia/Z. Ledinek Štosir | Pathology for Gastrointestinal Cancer A. Vilaia/ Z. Ledinek Štosir                                  |
| 10.00 - 10.10 | Q&A                                                                | Q&A                                                                                           | Q&A                                                                              | Q&A                                                      | Q&A                                                                                                 |
| 10.10 - 10.40 | Coffee break                                                       |                                                                                               |                                                                                  |                                                          |                                                                                                     |
| 10.40 - 11.00 | Breast Cancer Surgical Aspects<br>P. Schrenk                       | Gynecologic Cancer Surgical Aspects<br>D. Ralser                                              | Genitourinary Cancer Surgical Aspects<br>J. Teufl-Berger                         | Lung Cancer Surgical Aspects<br>C. Zacherl               | Gastrointestinal Cancer Surgical Aspects<br>S. Stättner/A. Brandl                                   |
| 11.00 - 11.10 | Q&A                                                                | Q&A                                                                                           | Q&A                                                                              | Q&A                                                      | Q&A                                                                                                 |
| 11.10 - 11.30 | Chemo-radiation for Breast Cancer<br>N. Dinapoli                   | Chemo-radiation for Gynecologic Cancer<br>M. Spalek                                           | Chemo-radiation for Genitourinary Cancer<br>M. Spalek                            | Chemo-radiation for Lung Cancer<br>N. Dinapoli           | Chemo-radiation for Gastrointestinal Cancer<br>M. Spalek                                            |
| 11.30 - 11.40 | Q&A                                                                | Q&A                                                                                           | Q&A                                                                              | Q&A                                                      | Q&A                                                                                                 |
| 11.40 - 12.40 | Lunch                                                              |                                                                                               |                                                                                  |                                                          |                                                                                                     |
| 12.40 - 14.30 | Clinical visits in small groups                                    |                                                                                               |                                                                                  |                                                          | Group Presentations                                                                                 |
| 14.30 - 15.00 | Coffee break                                                       |                                                                                               |                                                                                  |                                                          |                                                                                                     |
| 15.00 - 16.00 | Case presentations and MDT discussion                              |                                                                                               |                                                                                  |                                                          |                                                                                                     |
