

ESSO Video-Based Workshop on Cytoreductive Surgery

2nd February 2027, Berlin (DE)

Moderator

Paul H. Sugarbaker, Washington Cancer Institute, Washington, DC, US

Panelists

Aditi Bhatt, Shalby Cancer and Research Institute, Ahmedabad, India

Olivier Glehen, Centre Hospitalier Lyon-Sud, Pierre Bénite, Lyon, FR

Shigeki Kusamura, Fondazione IRCCS Istituto Nazionale dei Tumori, Milan, IT

Faheed Mohamed, Basingstoke and North Hampshire Hospital, Basingstoke, UK

Beate Rau, Charité University of Berlin Campus Virchow-Klinikum, Berlin and Medizinische University Hannover, Hannover, DE

Kurt Van der Speeten, Ziekenhuis Oost-Limburg, Genk, BE

Programme

09:00 – 09:15	Introduction of panel and participants
09:15 – 09:40	Anatomy video
09:40 – 10:00	Discussion of peritoneal anatomy
10:00 – 10:10	Flow of peritoneal fluid
10:10 – 10:20	Peritoneal attachments to the body surfaces
10:20 – 10:50	<i>Coffee break</i>
10:50 – 11:30	Slide presentation of 10 occult peritoneal spaces
11:30 – 11:45	Peritoneal attachments to trap tumor cells
11:45 – 12:00	Reopening the battle-scarred abdomen
12:00 – 13:00	<i>Lunch</i>

13:00 – 13:25 Video presentation of 5 parietal peritonectomy procedures

13:25 – 14:00 Slide presentation — peritonectomy procedures

14:00 – 14:25 Video presentation of mesenteric peritonectomies

14:25 – 14:55 *Coffee break*

14:55 – 15:10 Minimally invasive cytoreductive surgery

15:10 – 15:25 Minor visceral resections

15:25 – 15:50 Major visceral resections and reconstruction

15:50 – 16:00 Clarification of cytoreductive surgical procedures and reporting

16:00 – 16:10 Closing the abdomen and end of course

Reporting and billing for CRS as defined by 7 peritonectomy procedures

16:10 – 16:25 Boundaries by PCI

16:25 – 16:40 Current procedural terminology

16:40 – 17:10 Video #1 — LAR with malignant peritoneal mesothelioma, with placement of an intraperitoneal port, plus discussion

17:10 – 17:40 Video #2 — Visceral-sparing CRS for pseudomyxoma peritonei, plus discussion
